1. The following is an examiner's statement of reasons for allowance:
2. All of the claims now presented as a result of the amendment filed 21 August 2003, claims 2,4-11, 13, and 15-19, are allowable for the reasons set forth in the previous office action.

The remarks filed 21 August 2003 brought to the attention of the Examiner a copending application, 09/727,632, with related subject matter. Due to the relationship of the claimed subject matter and what has been indicated as allowable in these two applications at the present time, there appears that there may be a question of double patenting in the obviousness type between these two applications. As the cases now stand, this application is otherwise in condition for allowance due to the amendment filed 21 August 2003; the copending application has been rejected and does not as of this date have a response present in the file and available for review; thus its status remains as of this date under rejection. As both applications are pending, if there is double patenting of the obviousness type, a provisional double patenting rejection would be appropriate. MPEP 804.I.B states:

If the "provisional" double patenting rejection in one application is the only rejection remaining in that application, the examiner should then withdraw that rejection and permit the application to issue as a patent, thereby converting the "provisional" double patenting rejection in the other application(s) into a double patenting rejection at the time the one application issues as a patent.

Thus if the question of double patenting of the obviousness type were considered here and double patenting found to be present, this application would pass to issue

under MPEP 804.I.B; if double patenting were found not to be present, this application would also pass to issue. Therefore, this application is being allowed, and the question of double patenting will need to be, and will be, addressed in the copending application.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

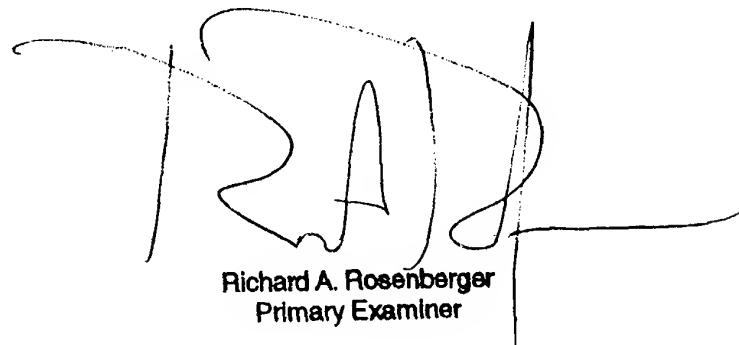

4. On the drawings, in particular figures 9, 10, and 15-19, the reference numerals are rough and obviously hand-drawn. Correction is needed.

5. Papers related to this application may be submitted to Group 2800 by facsimile transmission. The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (15 November 1989). The fax number is (703) 872-9306

Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. A. Rosenberger whose telephone number is (703) 308-4804.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0956.
